

**Lewis & Clark College, Professional Mental Health Counseling Program, Syllabus Cover Sheet
MHC 582/583 and MHCA 582, Mental Health Internship / PMHC-A Internship**

Required Objectives:

Professional Identity Standards (CACREP 2009 Standards)

- 1d. self-care strategies appropriate to the counselor role;
- 1i. advocacy processes needed to address institutional and social barriers that impede access, equity, and success for clients; and
- 1j. ethical standards of professional organizations and credentialing bodies, and applications of ethical and legal considerations in professional counseling
- 2d. individual, couple, family, group, and community strategies for working with and advocating for diverse populations, including multicultural competencies;
- 2f. counselors' roles in eliminating biases, prejudices, and processes
- 5a. an orientation to wellness and prevention as desired counseling goals;
- 5b. counselor characteristics and behaviors that influence helping processes;
- 5c. essential interviewing and counseling skills;
- 5e. a systems perspective that provides an understanding of family and other systems theories and major models of family and related interventions;
- 5f. a general framework for understanding and practicing consultation; and
- 5g. crisis intervention and suicide prevention models, including the use of psychological first aid strategies.
- 6d. group counseling methods, including group counselor orientations and behaviors, appropriate selection criteria and methods, and methods of evaluation of effectiveness; and
- 7f. social and cultural factors related to the assessment and evaluation of individuals, groups, and specific populations; and
- 7g. ethical strategies for selecting, administering, and interpreting assessment and evaluation instruments and techniques in counseling.
- 8e. the use of research to inform evidence-based practice

Clinical Mental Health Standards (CACREP 2009 Standards)

- A2. Understands ethical and legal considerations specifically related to the practice of clinical mental health counseling. (2001-A4)
- A3. Understands the roles and functions of clinical mental health counselors in various practice settings and the importance of relationships between counselors and other professionals, including interdisciplinary treatment teams. (2001-b1)
- A6. Recognizes the potential for substance use disorders to mimic and coexist with a variety of medical and psychological disorders.
- B1. Demonstrates the ability to apply and adhere to ethical and legal standards in clinical mental health counseling.
- D1. Uses the principles and practices of diagnosis, treatment, referral, and prevention of mental and emotional disorders to initiate, maintain, and terminate counseling.
- D2. Applies multicultural competencies to clinical mental health counseling involving case conceptualization, diagnosis, treatment, referral, and prevention of mental and emotional disorders.
- D3. Promotes optimal human development, wellness, and mental health through prevention, education, and advocacy activities
- D4. Applies effective strategies to promote client understanding of and access to a variety of community resources.

- D5. Demonstrates appropriate use of culturally responsive individual, couple, family, group, and systems modalities for initiating, maintaining, and terminating counseling
- D6. Demonstrates the ability to use procedures for assessing and managing suicide risk.
- D7. Applies current record-keeping standards related to clinical mental health counseling.
- D8. Provides appropriate counseling strategies when working with clients with addiction and co-occurring disorders.
- D9. Demonstrates the ability to recognize his or her own limitations as a clinical mental health counselor and to seek supervision or refer clients when appropriate.
- F1. Maintains information regarding community resources to make appropriate referrals.
- F2. Advocates for policies, programs, and services that are equitable and responsive to the unique needs of clients.
- F3. Demonstrates the ability to modify counseling systems, theories, techniques, and interventions to make them culturally appropriate for diverse populations.
- H2. Demonstrates skill in conducting an intake interview, a mental status evaluation, a biopsychosocial history, a mental health history, and a psychological assessment for treatment planning and caseload management.
- H3. Screens for addiction, aggression, and danger to self and/or others, as well as co-occurring mental disorders.
- H4. Applies the assessment of a client's stage of dependence, change, or recovery to determine the appropriate treatment modality and placement criteria within the continuum of care.
- J1. Applies relevant research findings to inform the practice of clinical mental health counseling.
- J2. Develops measurable outcomes for clinical mental health counseling programs, interventions, and treatments.
- J3. Analyzes and uses data to increase the effectiveness of clinical mental health counseling interventions and programs.
- L1. Demonstrates appropriate use of diagnostic tools, including the current edition of the DSM, to describe the symptoms and clinical presentation of clients with mental and emotional impairments.
- L2. Is able to conceptualize an accurate multi-axial diagnosis of disorders presented by a client and discuss the differential diagnosis with collaborating professionals.
- L3. Differentiates between diagnosis and developmentally appropriate reactions during crises, disasters, and other trauma-causing events.

Key Required Assignments/Student Learning Outcomes

These assignments are required for the course, but **will not be the only requirements/expectations.**

The chart below lists the assignment, method of submission, and benchmark score/grade. These assignments are set up for upload to Taskstream and/or instructor provides rating for assignment. See syllabus for details.

Theory and Research into Practice		Proficient (A)	Benchmark (B)	Emerging (C)	Inadequate /Fail	As evidenced by:	Evaluation and Remediation
Goal 2 of 6 Human Development							
Demonstrates an understanding of individual and family development	Internship	Highly skilled at identifying the impact individual and family development has on the therapeutic process.:Score: 3	Understands the impact of a person's individual and family development on the therapeutic process: Score 2	Is aware of the impact of a person's individual and family development on the therapeutic process Score: 1	Is unable to apply developmental theory with clients Score:0	Internship Evaluation Item 52	Internship Instructor Review/Referral to BRC or ARC

Mental Health Internship: Adult/Child Internship—582/583—Fall 2015

Stella Beatríz Kerl-McClain, Ph. D.
Rm 328 Rogers Hall
503-841-0333 (cell)

Office hours: Mon. 12:30-3:30; Wed. 12:30-1:00
and other possible times as arranged by email
sbk@lclark.edu

Please email me to make appointments for office hours! If I have no appointments scheduled during office hours, I may schedule meetings or other appointments during those times.

Course Description: This class provides clinical supervision and education for intern counselors working with adults and/or children in their supervised community experience. The class will emphasize developing and applying a repertoire of concepts and strategies for case conceptualization, treatment planning, intervention strategies and skills, and ethical conduct in working with clients presenting a wide variety of individual and relationship issues.

Catalogue Description: Internship in a community setting. Participants engage in counseling and related professional activities under supervision. Students write reports, prepare case histories, and submit work samples for supervisory review.

Textbook:

ALL STUDENTS MUST READ ARTICLES/READINGS FROM MOODLE LINKS AS ASSIGNED

Note: If you have a disability that may impact your academic performance, you may request accommodations by submitting documentation to the Student Support Services Office in the Albany Quadrangle (x7156). After you have submitted documentation and filled out paperwork there for the current semester requesting accommodations, staff in that office will notify me of the accommodations for which you are eligible.

Methods of Evaluation:

- Sharing current experiences in your internship and client issues to sound out with peers
- Participation in discussion and feedback to client/site/supervision issues of peers
- One comprehensive written case conceptualizations and presentation over the semester (video preferred, not required but optional)
- Documentation of work completed
- Site supervisor's evaluation of performance
- Satisfactory performance on the Professional Qualities Evaluation Form

Requirements for credit:

- Complete a minimum of 240 hours of supervised direct counseling/client contact with individuals, couples, families and groups combined over 2 semesters at assigned internship sites, other hours to total 600 over 2 semesters.
- Complete one written case presentation/extended check-in)
- Submit **weekly** documentation of supervision [CARE note] session to faculty supervisor during class.

- Satisfactory evaluations from on-site supervisor and on-campus instructor/supervisor. This includes satisfactory responses to ethical dilemmas and challenges.
- Attendance and active participation in on-campus intern supervision class for two full semesters.
- Demonstration of ability to accept and respond responsibly to both site and campus supervision.
- Demonstration of ability to work collaboratively with colleagues at the internship site and on campus.

NOTE: This is a credit/no credit course for two semesters. Your credit for both semesters will be deferred until you have completed all requirements for the internship after the second semester. This includes completion and documentation of all hourly requirements for client contact and supervision, satisfactory evaluation by your supervisor for both semesters, your evaluation of the internship site, and class requirements listed above.

Attendance: Class attendance is expected and required. Any missed class time will be made up by completing extra assignments designed by the instructor. Missing more than ten percent of class time may result in failure to complete the class. This would be 4.5 hours of a 45 hour class (3 credits), 3.0 hours for a 30 hour class (2 credits) or 1.5 hours for a 15 hour class (1 credit.) In case of extreme hardship and also at the discretion of the instructor, a grade of incomplete may be given for an assignment or the entire course. In such cases, the work to be submitted in order to remove the incomplete must be documented appropriately and stated deadlines met. Students are expected to be on time to class and tardiness may be seen as an absence that requires make-up work. Being 30 minutes late to class or leaving 30 minutes early (except when class is dismissed early) will be considered one absence.

A Note on Confidentiality: Much of our class discussion and most of the written work you do for this class will contain information about clients. All such private information falls within our shared responsibility for maintaining its confidentiality and protecting the privacy of our clients. Guidelines for fulfilling our responsibilities in this regard include the following:

- Written materials referring to clients should either refer to them by their initials or a by a pseudonym. If the materials are copied and contain the client's name, the name should be blocked out with a black felt tip pen.
- Videotapes of client counseling sessions should be kept secure and should be erased when they have been viewed.
- Classroom doors will be closed when we are discussing cases or viewing videos of actual clients.
- Written materials you turn in for review must follow confidentiality guidelines.
- Remember, what we talk about in the classroom STAYS IN THE CLASSROOM!

Class Structure:

First part of class: Group supervision--Each intern will share how they are doing, challenges they are having personally or professionally, or issues related to their internships/clients. Each intern will identify one client (see brief conceptualization requirement) or a topic they need to discuss. This can be a client, a site issue, a personal issue related to functioning as a counselor, career

issues, etc. If you do not discuss an issue, we will question and question you about everything that is going on!

Note: Issues involving suicide, child abuse reporting, or major ethical considerations should always be discussed!

Second part of class: Comprehensive Case Summary/Conceptualization (aka extended check-in) on scheduled date.

Guidelines for Comprehensive Case Summary/Extended Check-In: Due one time per semester

Structure of Presentations

- Brief overview of theoretical orientation demonstrated in a non-written/non-narrative way. This might be a chart, drawing, painting or extended metaphor. Our feedback will be, in part, designed to help you to find a better fit between your theory and your work with clients (about 10 minutes)
- Handout of presentation MUST INCLUDE ALL CATEGORIES LISTED BELOW (uploaded to Moodle the night before class).
- Review/present written case emphasizing theoretical conceptualization (5 minutes)
- Specifically state feedback you are seeking (1 minute)
- Class views 10-15 minute section of videotaped counseling session, if available (15-20 minutes)
- Class discussion and feedback 20-40 min

Handout must include ALL of following sections/areas. List EACH numeral (so that ALL of them are listed) as categories, and if the category is non-applicable, state this under the category.

DO NOT OMIT ANY OF THE FOLLOWING CATEGORIES:

- I. Overview of your theoretical perspective(s)—DO NOT WRITE THIS DOWN; just present it as discussed above
- II. Chief complaint/presenting problem
- III. Demographic data
- IV. History of the present illness
- V. Family issues/influences
- VI. Psychiatric/Medical: Medical/RX history for client and family
- VII. Substance Use, Abuse, Dependence History: Client and Family
- VIII. Cognitive/Affective/Behavioral/Physical Status (mini Mental Status Exam)
- IX. Client strengths/weaknesses
- X. Diagnostic Summary: DSM-5 diagnosis and brief explanation
- XI. Treatment plan consistent with your theoretical orientation (include short-term goals and longer term, theory-consistent objectives.
- XII. Transference/Counter transference issues
- XIII. Ethical Issues involved
