Course Description:

Addresses key issues of importance to new professional mental health and addiction counselors entering the field. This course is designed to apply career development principles to the professional development of counselors in a variety of roles and settings. Administration, supervision, consultation, and other career-related opportunities for professional mental health counselors will be explored.

Requirements:

Course requirements will include class participation, a presentation and handout on an area of expertise; description of self-care practice, and a personal resume. The course is graded on a credit/no credit basis; credit will be received if all assignments have been completed satisfactorily.

Late Assignments: Any assignments turned in late (without previous permission) will automatically receive a reduction in grade.

Major Assignments:

1. Constructing Your Future Professional Experiences. (30 points)

In this *brief* assignment, describe your ideal professional experience(s). Feel free to describe both your short and long-term hopes and plans for your professional career. This assignment should be a minimum of 10 PowerPoint or Prezi presentation slides.

This assignment should be submitted via Moodle and presented in class.

2. Developing Expertise. (40 points)

What's your niche? What's your specialty? Whether you plan to immediately go into private practice or work for a community agency, having a niche in the field of counseling can be extremely beneficial when it comes to searching for a job or building up a clientele. The objective of this short PowerPoint or Prezi is to describe, in detail, either an area of expertise in the counseling profession that you already have or one that you plan to work on developing. For example, have you been working with trauma survivors and have accrued substantial skills working with trauma and clients with post-traumatic stress disorder? If so, describe what makes this area your specialty and what you plan to do to continue to sharpen current skills and develop new ones? How would you present your expertise to a potential employer or how would you market yourself to potential clients? This PowerPoint or Prezi presentation should be a minimum of 10 presentation slides. This assignment should be submitted via Moodle.

3. Advocacy Public Service Announcement. (30 points)

Advocacy continues to be a part of many counselors' professional careers and is a part of our ethical standards as professional counselors. This assignment tasks you with creating a public service announcement for a social justice advocacy topic of your choice. While not required, feel free to use your advocacy topic from CPSY 550: Diversity and Social Justice. This assignment should be brief and think of it as something that could be read on the radio. For example, how would you educate the public in one minute or less on the impact of long-term trauma on survivors of intimate partner violence? How would you present the need for children from low-income families to have access to nutritious food? Or the need for more mental health services for veterans returning from war? This should be something that would pull for supportive buy-in from the general public. This PowerPoint or Prezi presentation should be a minimum of 15 presentation slides. This assignment should be submitted via Moodle.

Grading Summary:

Professional Experiences	30
Developing Expertise	40
Advocacy Announcement	30
Total Possible Points	100

Grading: This course is graded in accordance with the grading policy of the Graduate School of Education and Counseling, available for viewing in the Navigator Student Handbook (http://www.lclark.edu/graduate/student_life/handbook/registration_policies/index.php#system) and is the point equivalent of that grading scale (A = 4.0 A- = 3.7 B+ = 3.3 B = 3.0 B- = 2.7 C+ = 2.3 C = 2.0 C- = 1.7 D+ = 1.3 D = 1.0 F = 0.0).

Thus, grades for the course are determined by the following percentages:

- A = 94-100 A- = 90-93 B+ = 87-89
- B = 84-86 B- = 80-83 C+ = 77-79
- C = 74-76 C- = 70-73
- F = Below
