The focus of the class is on providing ethical and competent client care. Skills that receive particular attention include the use of response art to aid in developing a therapeutic relationship, counselor empathy, compassion, and art therapist identity.

COURSE DESCRIPTION

This class is designed to provide instruction and supervision to first and second semester practicum students working with clients at their Art Therapy Practicum Sites. CPSY DEPARTMENTAL ATTENDANCE POLICY

Class attendance is expected and required. Any missed class time will be made up by completing extra assignments designed by the instructor. Missing more than ten percent of class time may result in failure to complete the class. This would be 4.5 hours of a 45 hour class (3 credits), 3.0 hours for a 30 hour class (2 credits) or 1.5 hours for a 15 hour class (1 credit.) In case of extreme hardship and also at the discretion of the instructor, a grade of incomplete may be given for an assignment or the entire course. In such cases, the work to be submitted in order to remove the incomplete must be documented appropriately and stated deadlines met. Students are expected to be on time to class and tardiness may be seen as an absence that requires make-up work.

DISCLOSURE OF PERSONAL INFORMATION

Each student should decide for him/herself what information to disclose. Students are advised to be prudent when making self-disclosures. The program cannot guarantee confidentiality of student disclosures given the group environment, although personal comments should be considered private and confidential – and remain only in the classroom – unless an exception to confidentiality applies.

ETHICAL AND PROFESSIONAL PRACTICE

The Art Therapy profession requires a high level of personal integrity, self-awareness, and personal maturity. These attributes may also be considered by faculty in assessing the student's overall grades, and qualifications for a career as a professional art therapist. All students in the class will demonstrate behavior that is consistent with the Codes of Ethics of the American Counseling Association and the Art Therapy Credentials Board, in class and at their practicum sites.

Supervisor evaluations and observations will be assessed, and performance at site will be incorporated into class evaluations. Students are expected to meet or exceed expectations within their evaluations at a rate of 80% by the end of the semester. Faculty supervisors will work closely with students and site to ensure any issues or inadequacies are resolved or remediated in a timely manner.

The Clinical Experience Manual will be reviewed extensively within the course, however, please refer to the manual for any questions regarding expectations or requirements with-in practicum.

CELL PHONES
