

**MCFT 522 Diagnosis of Mental and Emotional Disorders
SPRING 2022 (2 units)**

Time & Day: MCFT 522-04: Thursday 5:30-8:30, 1/13/2022 – 3/17/2022

Place: Classes will start on Zoom, for the first 2 weeks, then resume in Room 219, Rogers Hall

<https://zoom.us/j/92144256988?pwd=M2FoWVcvUVpiSHhraFoxQTk3M3Z5QT09>

Instructor: Greg Robillard, LMFT

Office Hours: email instructor to schedule an appointment

E-Mail: grobillard@lclark.edu

Phone: 503-318-3247

CATALOG DESCRIPTION

Introduction to the structure and use of the DSM 5 for diagnosing mental and emotional disorders. Limits and weaknesses of these approaches—especially with regard to sociocultural differences—and alternatives to them. How to use these systems effectively in the context of relational, biopsychosocialspiritual, systemic interventions, and in culturally diverse environments. Current knowledge, theory, and issues regarding selected disorders and their treatment.

CREDITS: 2 semester units (30 total clock hours)

STUDENT LEARNING OUTCOMES

This course promotes the following student learning outcomes:

SLO 1.1 Students recognize the impact of power on individuals, families, and communities.

SLO 2.1 Students self-reflect on the implications of own and others' social location in clinical practice.

SLO 2.2 Students' clinical practice demonstrates attention to social justice and cultural democracy.

SLO 4.2 Students provide competent service according to the AAMFT code of ethics and core competencies.

SLO 4.3 Student demonstrate integration of family therapy theory, equity, and social location in clinical practice.

COURSE OBJECTIVES

The following objectives are in keeping with the AAMFT Core Competencies. At the end of this course, students are expected to:

1. Consider sociocultural influences on the development of DSM criteria and their application
2. Understand ethical considerations related to diagnosis of mental and emotional problems in the practice of marriage, couple, and family therapy.
3. Know the etiology, the diagnostic process and nomenclature, treatment, referral, and prevention of mental and emotional disorders.

4. Know the principles of the diagnostic process, including differential diagnosis, and the use of current diagnostic tools, such as the current edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM).
5. Understand the established diagnostic criteria for mental and emotional disorders, and describe treatment modalities and placement criteria within the continuum of care.
6. Understand appropriate use of diagnosis during a crisis, disaster, or other trauma-causing event.
7. Demonstrate appropriate use of diagnostic tools, including the current edition of the DSM, to describe the symptoms and clinical presentation of clients with mental and emotional impairments.

TEXTS/READINGS

Required Books

American Psychiatric Association (2013). *Diagnostic and Statistical Manual of Mental Disorders, 5th Edition*. Washington, D.C.: American Psychiatric Association Press.

Morrison, J. (2014) *Diagnosis Made Easier: Principles and Techniques for Mental Health Clinicians, 2nd ed.* New York, NY: Guilford Press.

Watters, E. *Crazy like Us: The Globalization of the American Psyche*. (2010). New York: First Free Press

Required Articles

Listed each week in the syllabus.

COURSE OBJECTIVES, STUDENT LEARNING OUTCOMES, AND EVALUATION ACTIVITIES

Course Objective	MCFT Student Learning Outcomes	AAMFT Core Competencies & AMFRTB task statements	Evaluated by

COURSE ASSIGNMENTS

A note about writing: All written submissions for this course should be typed, in 12-point size, Times New Roman font, and double-spaced. **Do not exceed listed page length.** The ability to express yourself and think critically through writing is important to your professional development. **Please proofread/edit** your writing and be coherent with your writing style.

1 **Participation:** (30 points)

This course emphasizes shared engagement with the assigned readings and development clinical competencies through case discussions and role plays. Toward this end, you are expected to:

- Attend and participate in **all** class meetings. In the event of illness or other emergency, please email the instructor in advance of class. Missed classes will be made up by written reflections on the required readings for the day.
- Come to class prepared (having read the assignment for the day) and contribute to in-class discussion/activities based on the readings assigned.
- Respectfully engage with other students and/or the instructor in a spirit of openness and curiosity.

Your participation will be evaluated according to the following criteria:

CLASS PARTICIPATION	Possible points
Prompt and dependable presence in the class.	5
Prepares for class by immersing self in course readings and reflecting on their application to personal practice.	10
Contributes to ongoing reflection and evaluation of own development of a critical contextual consciousness and awareness of equity in the practice of MCFT.	5
Contributes to the development of other class members and the group as a whole.	5
Helps to create an atmosphere of safety and mutual respect among all class members.	5
Total	30

2. *Group Project Case Vignette – Diagnosis Review:* (25 points)

Presentations are scheduled for February 24 and March 3. The reflection paper is due March 10.

A. Choose a character from a movie, TV, or book as a group and write up a case vignette. The group will need to present the following together:

- Developmental and Psychosocial History: Include significant events in childhood, developmental/ life transitions, family & community involvement. History of mental illness or substance abuse in the family, if known.
- Cultural factors as they relate to presenting problem: what is this person’s cultural context, and how might it impact their presenting problem?
- Diagnosis: Provide a full DSM-5 Diagnosis, including V codes.
- Rationale: Explain your reasoning for the diagnosis. What are the criteria that the client meets?
- Differential Diagnosis: What other diagnoses did you consider and/or rule out?

- It is less important that you attempt to find the "perfect" diagnosis, but rather that you show evidence to support your diagnosis and differential diagnosis, based on the information provided in the vignette. Discuss relational, biopsychosocialspiritual and systemic issues that may complicate the diagnosis. Note that the greatest weight is placed not on the diagnosis but on your reasoning and explanation.

B. Each participant will write their own individual paper (2-3 pages) reflecting on this experience. Some possible themes:

- Did you struggle to find clarity for your diagnosis?
- Did you notice any discomfort/tension in adding this label?
- What might it be like to imagine delivering this diagnosis to a client in a clinical setting?
- Consider the power dynamic inherent in providing a diagnosis to this client.

Group Project Case Vignette – Diagnosis Review	Possible Points	Points Demonstrated
A. Provide a DSM-V diagnosis, <u>including code and all relevant specifiers</u> .	5	
B. Clearly explain your reasoning for each element of the diagnosis referring to data provided in the vignette to support your reasoning.	10	
C. Differential diagnosis: Identify other diagnoses you considered and clearly explain your reasoning for ruling out these diagnoses. Refer to data provided in the vignette to support your reasoning.	5	
D. Based on the details provided discuss relational, biopsychosocialspiritual and systemic issues that may complicate the diagnosis, or that you would explore to expand an understanding of symptoms of distress and resilience.	5	
TOTAL	25	

3. DSM-5 Cultural Formulation Interview (CFI) and Eco-map (20 Points) upload to Moodle eco-map (due session 3) and Paper (due session 4)

This assignment aims to familiarize you with the DSM - 5 Cultural Formulation Interview (CFI) while also creating an opportunity to explore culture, identity and the unique social and political contexts that influence assessment and diagnosis. Note that there are 3 steps to the assignment.

1) Read the DSM-5 CFI introduction and questions. **2)** Create an Eco-map due 1/27/22 (session 3). **3)** Write a 2-3 page paper due 2/3/22 (session 4).

- 1 Read the introduction to the Cultural Formulation Interview (CFI) and Interview questions to orient you toward this framework. As you create your Eco-map please

consider the *Outline for Cultural Formulation* categories for systemic assessment included in the introduction.

1.a Cultural identity of the individual

1.b Cultural conceptualization of distress

*1.c Psychosocial stressors and cultural features of vulnerability and **resilience***

1.d Cultural features of the relationship between the individual and the clinician
(this will be explored more fully in your paper)

1.e Overall cultural assessment (your insight into the role of culture, identity and social context on your sense of well-being)

- 2 Using images and symbols you will create an eco-map that reflects your personal experience of culture, identity, and the social/relational/political contexts, providing a more complete portrayal of challenges and resources that influence your sense of self and well-being.
 - 1.a Create a visual map using only images to portray your experience. You may use markers/pencils/crayons or use images from magazines and textures from a variety of found materials. Be creative and **allow time for deep contemplation**.
 - 1.b This eco-map will be a **visual representation** of the intersection of social and cultural strength as well as the barriers that interfere with a sense of well-being. The map represents your experience of complex and important social systems (family, community, schools, church, neighborhood), culture and individual identity. Link relationships and experiences with pathways, lines, arrows where it seems relevant.
 - 1.c Please use **images** and **symbols** that represent aspect of the experience, rather than drawing an accurate or artistic representation (i.e. stick figures, thin, thick and broken lines linking images to depict the strength of connections, use shapes and colors).
 - 1.d *Questions to consider:* Where was social and cultural capital/strength overlooked or challenged? Where do you see sources of rupture or distress? Are there cultural conceptions of distress that might be viewed differently with careful consideration? Can you identify tension related to points of privilege and power? How are (or could) elements of cultural strength be highlighted to support an improved sense of well-being? Who are the people who have influenced you most? What and where are the resources?
 - 1.e Bring your eco-map to class on 1/27/2022. You will be asked to share your eco-map with 2 of your classmates. This group will share a brief report to the class.
- 3 A 2-3 page paper will be due 2/3/22, the session following the sharing of eco-map in class. The paper should discuss:
 - 3.a Your experience of creating the Eco-map. In what ways did the Eco-map assignment challenge you to expand your awareness of culture and identity in the formulation of a diagnosis?
 - 3.b The implications and relevance of culture and identity on the development of diagnosis. Reference DSM-5 reading and CFI to clarify your points.
 - 3.c Discuss what you have learned about *potential* “cultural features of the relationship between the individual and the clinician”. How might your

social/cultural location and identity influence the discernment of culturally informed diagnosis?

Cultural Formulation Interview (CFI) and Eco-map <i>Eco-Map due 1/27 Paper due 2/3</i>	Possible Points	Points Demonstrated
A. Eco-map visually reflects your personal experience of culture and identity using images and symbols. Impressions from the CFI are integrated into the Eco-map	5	
B. Paper provides a personal reflection on the experience of creating the eco-map and highlights key learning from the project	5	
C. Paper displays an understanding of the CFI and culturally informed assessment. Reference to the CFI is incorporated	5	
D. Paper explores the students social/cultural location and identity, and the potential impact on diagnosis and relationships with clients.	5	
TOTAL	20	

EVALUATION AND GRADING

Your grade will be based on the criteria described above. Credit will be determined as follows:

Participation	30 pts
CFI – Eco-map and paper	20 pts
Diagnosis Review Group Project	25 pts
Diagnosis Review Group Project Paper	25 pts
Total	100 pts

94-100 = A	90-93.5 = A-	88-89.5 = B+
83-87.5 = B	80-82.5 = B-	78-79 = C+
73-77.5 = C	70-72 = C-	

CPSY DEPARTMENTAL ATTENDANCE POLICY

Class attendance is expected and required. Any missed class time will be made up by completing extra assignments designed by the instructor. Missing more than ten percent of class time may result in failure to complete the class. This would be 4.5 hours of a 45 hour class (3 credits), 3.0 hours for a 30 hour class (2 credits) or 1.5 hours for a 15 hour class (1 credit.) In case of extreme hardship and also at the discretion of the instructor, a grade of incomplete may be given for an assignment or the entire course. In such cases, the work to be submitted in order to remove the incomplete must be documented appropriately and stated deadlines met. Students are expected to be on time to class and tardiness may be seen as an absence that requires make-up work.

DISABILITY SERVICES STATEMENT

If you require academic accommodations, please contact the Student Support Services Office in

Albany Quadrangle (503-76-7192 or access@lclark.edu). Once you complete the intake process and the Accommodations Agreement, you may Request to Send your Accommodations Letter. Student Support Services staff will then notify faculty of the accommodations for which you are eligible.

DISCLOSURE OF PERSONAL INFORMATION

Each student should decide for him/herself what information to disclose. Students are advised to be prudent when making self-disclosures. The program cannot guarantee confidentiality of student disclosures given the group environment, although personal comments should be considered private and confidential – and remain only in the classroom – unless an exception to confidentiality applies.

LINKS TO LEWIS & CLARK GRADUATE SCHOOL ESSENTIAL POLICIES

This course adheres to the general policies outlined in the catalog and student handbook of the Lewis & Clark Graduate School of Education and Counseling. This includes full adherence to the following policies:

- Nondiscrimination: go.lclark.edu/gsec-nondiscrimination;
- Standards for professional student conduct and academic integrity: go.lclark.edu/gsec-conduct;
- Sexual misconduct: go.lclark.edu/titleIX

COVID RESPONSE

The COVID-19 context continues to evolve and we continue to work together in an academic and professional capacity for the purpose of learning and developing as therapists-in-training during a dynamic time.

It is crucial that we do our best to approach the learning process with grace and understanding for ourselves and one another. As we continue to learn and grow in our academic and professional capacities, we must nurture sustainable self-care practices that enable us to keep collaborating with one another during periods of challenge and uncertainty.

The Lewis & Clark MCFT program will proceed with the College's plans for in-person classes beginning on January 25, 2022. For the first two weeks of spring term, we will conduct all classes remotely via Zoom. All students, faculty, and staff are required to follow the College's COVID policies and protocols outlined on LC's COVID-19 Response page:

<https://www.lclark.edu/news/covid-19-response/>

If the College modifies their instructional plans for spring term, the MCFT program will follow accordingly. Students will receive notifications of any changes from the Dean's office with follow-up from the Program Director and faculty.

When circumstances require for class meetings to be conducted strictly via Zoom from our individual locations at any time throughout the semester, students will need to ensure the following:

- A computer - PC or Macintosh- with video capabilities and a stable Internet connection. Higher speed Internet connections (cable modem, DSL *with speed of at least 10 mbps*) are strongly recommended.
- The most current version of Zoom downloaded as an application on your computer
 - Download Zoom <https://zoom.us/download>
 - For help and troubleshooting with Zoom, visit the Zoom Help Center: <https://support.zoom.us>
- Access to quiet, confidential space for the duration of class hours
- A reliable Lewis & Clark email address (lclark.edu) that will not change from the beginning until the end of the semester.
- A "technology back-up" plan. Students should plan out an alternative location in the event their computer or Internet connection is not working.

Students are also required to:

- Make use of the online course materials available via Moodle(<https://moodle.lclark.edu>). You need to log into Moodle and give the system 24 hours for the courses to appear on your dashboard. Access to these materials is available once you have registered for the course.
- Check your Lewis & Clark email (lclark.edu) on a daily basis for communication from the instructor and Lewis & Clark, and respond in a timely manner.
