CPSY DEPARTMENTAL ATTENDANCE POLICY

Class attendance is expected and required. Any missed class time will be made up by completing extra assignments designed by the instructor. Missing more than ten percent of class time may result in failure to complete the class. This would be 4.5 hours of a 45 hour class (3 credits), 3.0 hours for a 30 hour class (2 credits) or 1.5 hours for a 15 hour class (1 credit.) In case of extreme hardship and also at the discretion of the instructor, a grade of incomplete may be given for an assignment or the entire course. In such cases, the work to be submitted in order to remove the incomplete must be documented appropriately and stated deadlines met. Students are expected to be on time to class and tardiness maybe seen as an absence that requires make-up work.

DISABILITY SERVICES STATEMENT

If you have a disability that may impact your academic performance, you may request accommodations by meeting with the Office of Student Accessibility staff and submitting documentation on the Office of Student Accessibility website. Email access@lclark.edu with any additional questions or concerns.

Each student should decide for him/herself what information to disclose. Students are advised to be

prudent when making self-disclosures. The program cannot guarantee confidentiality of student disclosures given the group environment, although personal comments should be considered private and confidential – and remain only in the classroom – unless an exception to confidentiality applies.

COURSE ASSIGNMENTS

The following assignments are also required to receive course credit. Unprofessional behavior and/or failure to demonstrate appropriate clinical progress could also result in **No Credit** for the course.

1. Participation. It is important to arrive promptly for all class meetings and fully engage in all class discussions and clinical activities.

2. Professional and self of the therapist development.

Each student will conclude their internship training with a 15-minute presentation on an issue that relates to their on-going professional and/or self of the therapist development. Self of the therapist development refers to both personal areas of growth that influence how and what one does in therapeutic practice, as well as areas of growth more broadly that influence a person's clinical competence, professional identity, and role. To help you develop this presentation:

- Reflect on cases or moments throughout your year of clinical practice that helped you identify both your strengths and areas of challenge.
- Reflect on supervisory conversations and team consultations that informed your thinking around your identity and role as a therapist and how to enact these.
- Chart a vision of where you see yourself currently and what resources might enable you to evolve in your professional identity and clinical work.
- Presentations are an opportunity to have the group witness and support your vision. Therefore, presentations will not be followed by question and answer.
